

# Marching2More — GoHighLevel Admin Setup Spec

Site: [www.marching2more.com](http://www.marching2more.com)

Scope: Pipelines, Stages, Tags, Custom Fields, Contact Layouts, Smart Lists, Automation Triggers

Namespace: Clean M2M- prefix (separate from Recovery Masters / m2m-lead-generation conventions)

Funnels covered: Foreclosure · Divorce · Downsizing

Apply in: GHL → Settings (and Contacts → Smart Lists)

## 0. Naming Conventions (apply consistently)

| Element               | Format                                         | Example                             |
|-----------------------|------------------------------------------------|-------------------------------------|
| Pipeline              | M2M - {Funnel}                                 | M2M - Foreclosure                   |
| Pipeline stage        | Sentence case, action-oriented                 | Discovery Call Booked               |
| Tag                   | m2m-{category}-{value} (lowercase, hyphenated) | m2m-funnel-foreclosure              |
| Custom field          | M2M {Funnel} - {Field}                         | M2M Foreclosure - Auction Date      |
| Custom field group    | M2M {Funnel}                                   | M2M Foreclosure                     |
| Smart list            | M2M · {Funnel} · {View}                        | M2M · Foreclosure · Hot Leads       |
| Workflow / automation | M2M   {Funnel}   {Trigger}                     | M2M   Foreclosure   New Lead Intake |

**Why this matters:** every M2M asset is searchable by typing M2M in any GHL search box, and reporting filters are predictable.

## 1. Pipelines & Stages (3 separate pipelines)

All three pipelines share a common shape: Intake → Engagement → Qualification → Appointment → Offer → Closing → Outcome, with funnel-specific stages where the situation requires it. Edit freely before applying.

## 1.1 Pipeline: M2M – Foreclosure

Distressed sellers facing pre-foreclosure / NOD / auction timelines. Speed-to-lead is critical.

| #  | Stage                       | Purpose / Exit Criteria                                                           |
|----|-----------------------------|-----------------------------------------------------------------------------------|
| 1  | New Lead – Unworked         | Auto-created on form submit. Exit when first outbound attempt logged.             |
| 2  | Attempting Contact          | 1st–7th touch sequence active. Exit on live conversation OR 7 attempts exhausted. |
| 3  | Conversation Held           | Reached lead, gathered situation. Exit when qualified or disqualified.            |
| 4  | Qualified – Auction Pending | Confirmed homeowner, distress confirmed, auction date known.                      |
| 5  | Discovery Call Booked       | Calendar appointment scheduled.                                                   |
| 6  | Discovery Call Completed    | Showed up, discussed options (cash, list, short sale, loan mod referral).         |
| 7  | Property Visit Scheduled    | In-person walkthrough booked.                                                     |
| 8  | Offer Presented             | Cash offer or listing agreement presented.                                        |
| 9  | Under Contract              | Signed agreement.                                                                 |
| 10 | Closing Scheduled           | Title work in motion, closing date set.                                           |
| 11 | Closed – Won                | Deal funded.                                                                      |
| 12 | Lost – Auction Hit          | Property went to auction before close.                                            |
| 13 | Lost – Other                | DNC, listed elsewhere, kept home, unresponsive.                                   |
| 14 | Long-Term Nurture           | Not ready now, recycle to nurture workflow.                                       |

## 1.2 Pipeline: M2M – Divorce

Sellers navigating divorce — high emotion, often two decision-makers, longer timelines.

| #  | Stage                          | Purpose / Exit Criteria                                            |
|----|--------------------------------|--------------------------------------------------------------------|
| 1  | New Lead – Unworked            | Auto-created on form submit.                                       |
| 2  | Attempting Contact             | Outreach sequence active.                                          |
| 3  | Conversation Held              | Reached at least one party.                                        |
| 4  | Qualified – Both Parties Aware | Confirmed both spouses know home is being explored.                |
| 5  | Awaiting Attorney/Decree Info  | Need court date, decree, or attorney clearance before progressing. |
| 6  | Consultation Booked            | Discovery call on calendar.                                        |
| 7  | Consultation Completed         | Strategy options reviewed (sale, buyout, rent-back).               |
| 8  | Listing Strategy Agreed        | Both parties aligned on path forward.                              |
| 9  | Listing Agreement Signed       | Paperwork executed.                                                |
| 10 | Active Listing                 | On market.                                                         |

| #  | Stage             | Purpose / Exit Criteria               |
|----|-------------------|---------------------------------------|
| 11 | Under Contract    | Buyer found.                          |
| 12 | Closed – Won      | Funded.                               |
| 13 | Lost – Reconciled | Couple decided not to sell.           |
| 14 | Lost – Other      | Listed elsewhere, dropped, DNC.       |
| 15 | Long-Term Nurture | Holding pattern (case pending, etc.). |

### 1.3 Pipeline: M2M – Downsizing

Empty-nesters, retirees, lifestyle-driven sellers. Slower pace, education-heavy, referral-rich.

| #  | Stage                        | Purpose / Exit Criteria                                 |
|----|------------------------------|---------------------------------------------------------|
| 1  | New Lead – Unworked          | Auto-created on form submit.                            |
| 2  | Attempting Contact           | Outreach sequence active.                               |
| 3  | Conversation Held            | First real conversation.                                |
| 4  | Qualified – Timeline 0–6 mo  | Ready to move within 6 months.                          |
| 5  | Educating – Timeline 6–18 mo | Long-runway nurture, home valuation + market education. |
| 6  | Home Valuation Requested     | CMA/walkthrough requested.                              |
| 7  | Consultation Booked          | Strategy session on calendar.                           |
| 8  | Consultation Completed       | Discussed sell-and-buy, sell-and-rent, buy-before-sell. |
| 9  | Next-Home Search Active      | Working with buyer side simultaneously.                 |
| 10 | Listing Agreement Signed     |                                                         |
| 11 | Active Listing               |                                                         |
| 12 | Under Contract               |                                                         |
| 13 | Closed – Won                 |                                                         |
| 14 | Lost – Stayed Put            | Decided not to move.                                    |
| 15 | Lost – Other                 |                                                         |
| 16 | Long-Term Nurture            | 18+ month timeline.                                     |

## 2. Tag Taxonomy

All tags lowercase, hyphenated, prefixed m2m -. Apply via forms, workflows, and manual triage.

## 2.1 Funnel tags (mutually exclusive — one per contact)

- m2m-funnel-foreclosure
- m2m-funnel-divorce
- m2m-funnel-downsizing
- m2m-funnel-general (catch-all; uncategorized intake)

## 2.2 Source tags (where the lead came from)

- m2m-source-website
- m2m-source-quiz
- m2m-source-fb-ad
- m2m-source-google-ad
- m2m-source-youtube
- m2m-source-direct-mail
- m2m-source-referral
- m2m-source-organic-search
- m2m-source-partner (attorney, lender, etc.)
- m2m-source-manual (manually added)

## 2.3 Lifecycle tags (where they are in the journey)

- m2m-lifecycle-new
- m2m-lifecycle-engaged
- m2m-lifecycle-qualified
- m2m-lifecycle-appointment
- m2m-lifecycle-client
- m2m-lifecycle-closed-won
- m2m-lifecycle-closed-lost
- m2m-lifecycle-nurture

## 2.4 Behavior / engagement tags

- m2m-engaged-email-opened
- m2m-engaged-email-clicked
- m2m-engaged-sms-replied
- m2m-engaged-call-answered
- m2m-engaged-no-show
- m2m-engaged-quiz-completed

- m2m-engaged-booking-page-viewed

## 2.5 Compliance / suppression tags

- m2m-dnc (do not contact)
- m2m-do-not-email
- m2m-do-not-sms
- m2m-do-not-call
- m2m-bounce-hard
- m2m-spam-complaint

## 2.6 Priority / temperature tags

- m2m-priority-hot (auction <30 days, motivated, qualified)
- m2m-priority-warm
- m2m-priority-cold

## 2.7 Funnel-specific situational tags

### Foreclosure:

- m2m-fc-auction-30-day (auction within 30 days)
- m2m-fc-auction-60-day
- m2m-fc-auction-90-day-plus
- m2m-fc-equity-positive
- m2m-fc-equity-negative
- m2m-fc-loan-mod-candidate

### Divorce:

- m2m-dv-decree-final
- m2m-dv-decree-pending
- m2m-dv-attorney-engaged
- m2m-dv-both-parties-aligned
- m2m-dv-one-party-only

### Downsizing:

- m2m-ds-timeline-0-6mo
- m2m-ds-timeline-6-18mo
- m2m-ds-timeline-18mo-plus
- m2m-ds-needs-buy-too (sell + buy together)
- m2m-ds-cash-buyer-next

### 3. Custom Fields

Create field group first (Settings → Custom Fields → Add Folder), then add fields under each group. Mark fields as Required where noted.

#### 3.1 Shared field group: M2M Shared

Applies to all funnels.

| Field name                             | Type        | Options / Notes                                         |
|----------------------------------------|-------------|---------------------------------------------------------|
| M2M Shared – Property Address          | Single line | Required on all forms                                   |
| M2M Shared – Property City             | Single line |                                                         |
| M2M Shared – Property State            | Dropdown    | US states                                               |
| M2M Shared – Property Zip              | Single line |                                                         |
| M2M Shared – Property Type             | Dropdown    | SFR, Condo, Townhome, Multi-family, Mobile, Land, Other |
| M2M Shared – Bedrooms                  | Number      |                                                         |
| M2M Shared – Bathrooms                 | Number      |                                                         |
| M2M Shared – Square Footage            | Number      |                                                         |
| M2M Shared – Year Built                | Number      |                                                         |
| M2M Shared – Owner Type                | Dropdown    | Sole, Joint, Trust, LLC, Estate                         |
| M2M Shared – Mortgage Balance Estimate | Monetary    |                                                         |
| M2M Shared – Estimated Home Value      | Monetary    |                                                         |
| M2M Shared – Best Time to Contact      | Dropdown    | Morning, Afternoon, Evening, Weekend                    |
| M2M Shared – Preferred Contact Method  | Dropdown    | Phone, Text, Email                                      |
| M2M Shared – Lead Score                | Number      | Auto-populated by workflow (0-100)                      |
| M2M Shared – First Touch Source        | Single line | Auto-populated from form                                |
| M2M Shared – UTM Source                | Single line |                                                         |
| M2M Shared – UTM Medium                | Single line |                                                         |
| M2M Shared – UTM Campaign              | Single line |                                                         |
| M2M Shared – UTM Content               | Single line |                                                         |
| M2M Shared – Referrer URL              | Single line |                                                         |
| M2M Shared – GA Client ID              | Single line | For attribution                                         |
| M2M Shared – Notes (Intake)            | Multi-line  | Free-text from form                                     |

### 3.2 Field group: M2M Foreclosure

| Field name                           | Type        | Options / Notes                         |
|--------------------------------------|-------------|-----------------------------------------|
| M2M Foreclosure– Auction Date        | Date        | Required if known                       |
| M2M Foreclosure– NOD Date            | Date        | Notice of Default date                  |
| M2M Foreclosure– Months Behind       | Number      |                                         |
| M2M Foreclosure– Lender Name         | Single line |                                         |
| M2M Foreclosure– Total Amount Owed   | Monetary    |                                         |
| M2M Foreclosure– Equity Position     | Dropdown    | Positive, Break-even, Negative, Unknown |
| M2M Foreclosure– Working with Lender | Dropdown    | Yes, No, Tried, Don't know how          |
| M2M Foreclosure– Open to Cash Offer  | Dropdown    | Yes, No, Maybe                          |
| M2M Foreclosure– Open to Listing     | Dropdown    | Yes, No, Maybe                          |
| M2M Foreclosure– Reason for Hardship | Multi-line  |                                         |
| M2M Foreclosure– Bankruptcy Filed    | Dropdown    | No, Chapter 7, Chapter 13, Considering  |

### 3.3 Field group: M2M Divorce

| Field name                              | Type        | Options / Notes                               |
|-----------------------------------------|-------------|-----------------------------------------------|
| M2M Divorce– Divorce Stage              | Dropdown    | Considering, Filed, In Progress, Decree Final |
| M2M Divorce– Decree Date                | Date        |                                               |
| M2M Divorce– Both Parties on Title      | Dropdown    | Yes, No, Unsure                               |
| M2M Divorce– Both Parties Aware of Sale | Dropdown    | Yes, No, Unsure                               |
| M2M Divorce– Attorney Name              | Single line |                                               |
| M2M Divorce– Attorney Phone             | Phone       |                                               |
| M2M Divorce– Court Order Re: Home       | Dropdown    | None, Sell by date, Buyout required, Other    |
| M2M Divorce– Buyout Considered          | Dropdown    | Yes, No, Cannot afford                        |
| M2M Divorce– Children in Home           | Dropdown    | Yes, No                                       |
| M2M Divorce– Target Sale Date           | Date        |                                               |
| M2M Divorce– Spouse Contact Name        | Single line |                                               |
| M2M Divorce– Spouse Contact Phone       | Phone       |                                               |
| M2M Divorce– Spouse Contact Email       | Email       |                                               |

### 3.4 Field group: M2M Downsizing

| Field name                                 | Type        | Options / Notes                                                                  |
|--------------------------------------------|-------------|----------------------------------------------------------------------------------|
| M2M Downsizing – Reason for Downsizing     | Dropdown    | Empty nest, Retirement, Health, Cost of living, Lifestyle, Other                 |
| M2M Downsizing – Timeline                  | Dropdown    | 0–3 mo, 3–6 mo, 6–12 mo, 12–18 mo, 18+ mo                                        |
| M2M Downsizing – Next Home Type            | Dropdown    | Smaller SFR, Condo, Townhome, 55+ Community, Rental, Move in with family, Other  |
| M2M Downsizing – Buying Next Home          | Dropdown    | Yes – before sale, Yes – after sale, Yes – simultaneous, No – renting, Undecided |
| M2M Downsizing – Need Sale Proceeds to Buy | Dropdown    | Yes, No, Partial                                                                 |
| M2M Downsizing – Open to Off-Market Offer  | Dropdown    | Yes, No, Maybe                                                                   |
| M2M Downsizing – Mortgage Status           | Dropdown    | Paid off, <50% remaining, 50–80%, 80%+                                           |
| M2M Downsizing – Decision Makers           | Multi-line  | Spouse, kids, financial advisor, etc.                                            |
| M2M Downsizing – Preferred Move Area       | Single line |                                                                                  |

## 4. Contact Detail Layouts (per funnel)

GHL → Settings → Contact → Layouts. Create a layout per funnel and assign via workflow when funnel tag is added.

### 4.1 Layout: M2M Foreclosure Layout

Section order (top to bottom of contact card):

1. Contact Basics — Name, Phone, Email, Tags, Owner, Lead Score
2. Foreclosure Snapshot (*field group: M2M Foreclosure*)
  - Auction Date (*prominent — top of section*)
  - NOD Date
  - Months Behind
  - Total Amount Owed
  - Equity Position
  - Working with Lender
3. Property Details (*field group: M2M Shared — property fields*)
4. Seller Intent — Open to Cash Offer, Open to Listing, Reason for Hardship
5. Attribution — First Touch Source, UTM fields, Referrer URL

## 6. Notes & Activity

### 4.2 Layout: M2M Divorce Layout

1. Contact Basics
2. Divorce Snapshot — Divorce Stage, Decree Date, Both Parties Aware, Court Order Re: Home, Target Sale Date
3. Spouse / Co-Owner — Spouse Contact Name/Phone/Email, Both Parties on Title
4. Legal — Attorney Name, Attorney Phone, Buyout Considered
5. Property Details
6. Attribution
7. Notes & Activity

### 4.3 Layout: M2M Downsizing Layout

1. Contact Basics
2. Downsizing Snapshot — Reason, Timeline, Next Home Type, Buying Next Home, Preferred Move Area
3. Financial Picture — Mortgage Status, Need Sale Proceeds to Buy, Open to Off-Market Offer
4. Decision Context — Decision Makers, Best Time to Contact, Preferred Contact Method
5. Property Details
6. Attribution
7. Notes & Activity

### 4.4 Default fallback layout: M2M General Layout

Used when funnel is unknown / `m2m-funnel-general` is applied.

- Contact Basics → Property Details → Attribution → Notes

## 5. Smart Lists / Saved Filters

GHL → Contacts → Smart Lists. Create these for daily operator views.

| Smart list name               | Filter logic                                                      |
|-------------------------------|-------------------------------------------------------------------|
| M2M • All • New Today         | Tag <code>m2m-lifecycle-new</code> AND Date Added = Today         |
| M2M • All • Hot               | Tag <code>m2m-priority-hot</code>                                 |
| M2M • All • Needs First Touch | Tag <code>m2m-lifecycle-new</code> AND Last Activity > 1 hour ago |

| Smart list name                        | Filter logic                                                                                 |
|----------------------------------------|----------------------------------------------------------------------------------------------|
| M2M • Foreclosure • Auction <30 Days   | Tag m2m-fc-auction-30-day AND NOT m2m-lifecycle-closed-won AND NOT m2m-lifecycle-closed-lost |
| M2M • Foreclosure • Active Pipeline    | Pipeline=M2M–Foreclosure AND NOT in Closed/Lost stages                                       |
| M2M • Divorce • Awaiting Attorney Info | Pipeline stage="Awaiting Attorney/Decree Info"                                               |
| M2M • Divorce • Active Pipeline        | Pipeline=M2M–Divorce AND NOT closed                                                          |
| M2M • Downsizing • 0-6 Month Timeline  | Tag m2m-ds-timeline-0-6mo                                                                    |
| M2M • Downsizing • Long Nurture        | Tag m2m-ds-timeline-18mo-plus                                                                |
| M2M • All • No-Shows This Week         | Tag m2m-engaged-no-show AND Last Activity within 7 days                                      |
| M2M • All • DNC Audit                  | Tag m2m-dnc OR m2m-do-not-call OR m2m-do-not-email OR m2m-do-not-sm s                        |
| M2M • All • Closed Won (90 day)        | Tag m2m-lifecycle-closed-won AND Date in last 90 days                                        |

## 6. Workflow Triggers (the minimum set to make this real)

Build under Automation → Workflows. Each named per convention M2M | {Funnel} | {Trigger}.

### 6.1 Universal intake (one workflow per funnel form)

Trigger: Form submission → M2M - {Funnel} Intake Form

Actions in order:

1. Create/Update contact (upsert by phone + email)
2. Add tag m2m-funnel-{funnel}
3. Add tag m2m-source-{source} (mapped from UTM or hidden field)
4. Add tag m2m-lifecycle-new
5. Set custom field M2M Shared - First Touch Source
6. Assign owner (per assignment rule below)
7. Add to pipeline M2M - {Funnel} at stage New Lead - Unworked
8. Apply contact layout M2M {Funnel} Layout
9. Send internal notification (Slack/email/SMS to operator)
10. Trigger speed-to-lead sequence (1st text + call attempt within 5 min)

## 6.2 Critical: Success-page gating

Problem to solve (from your launch report): funnel success pages must NOT show "thanks" unless GHL actually received the lead.

Implementation:

- Form posts to GHL via native form/webhook
- Vercel page reads response status; only redirects to /thank-you on HTTP 200 + GHL contact ID returned
- On failure: redirect to /submission-error with retry CTA + email fallback `mailto:` link
- Add workflow M2M | All | Lead Receipt Confirmation that fires a webhook back to your monitoring (Airtable/Sheet log) confirming receipt — gives you a 2nd-channel audit trail

## 6.3 Stage-change automations (apply per pipeline)

- Stage → Discovery Call Booked: add tag `m2m-lifecycle-appointment`, send confirmation email + SMS, add to calendar reminder sequence
- Stage → Closed - Won: add tag `m2m-lifecycle-closed-won`, fire referral-request workflow at +14 days
- Stage → any Lost - \*: add tag `m2m-lifecycle-closed-lost`, route to long-term nurture if applicable

## 6.4 Owner assignment (configure to your team)

Recommended for now (single owner):

- All M2M leads → assigned to Donovan
- Add round-robin later when ISA/VA is hired

## 7. Pre-DNS Cutover QA Checklist (verify before flipping [marching2more.com](https://marching2more.com))

Match this against your launch report. Each must pass before DNS flip.

### 7.1 Form submission integrity

- [ ] Foreclosure intake form → contact appears in GHL within 10s
- [ ] Divorce intake form → contact appears in GHL within 10s
- [ ] Downsizing intake form → contact appears in GHL within 10s
- [ ] Quiz funnel → contact appears with quiz answers populated in custom fields
- [ ] Generic contact form → contact appears with `m2m-funnel-general`

## 7.2 Tag application

- ☐ Each form applies correct `m2m-funnel-*` tag
- ☐ Each form applies correct `m2m-source-*` tag (test from FB ad URL, Google ad URL, organic, direct)
- ☐ `m2m-lifecycle-new` applied on all new submissions
- ☐ UTM tags persist into custom fields (not just tags)

## 7.3 Pipeline placement

- ☐ Foreclosure leads land in `M2M - Foreclosure → New Lead - Unworked`
- ☐ Divorce leads land in `M2M - Divorce → New Lead - Unworked`
- ☐ Downsizing leads land in `M2M - Downsizing → New Lead - Unworked`
- ☐ Owner is assigned (not unassigned)

## 7.4 Success page gating

- ☐ Foreclosure form: success page only renders on confirmed GHL receipt
- ☐ Divorce form: same
- ☐ Downsizing form: same
- ☐ Failure path: error page renders + `mailto:` fallback works
- ☐ Test by temporarily breaking GHL endpoint → confirm no false success

## 7.5 Placeholder / link audit

- ☐ No `lorem ipsum` strings on any live page
- ☐ No `#placeholder` hrefs on CTAs
- ☐ No `example.com` or staging URLs
- ☐ All booking buttons point to live GHL calendar URLs
- ☐ All quiz CTAs point to live quiz URLs
- ☐ Phone number / email in footer match GHL primary

## 7.6 Notifications

- ☐ Operator receives instant notification on each new lead (Slack/email/SMS)
- ☐ Notification includes funnel, name, phone, and direct link to GHL contact

## 7.7 Compliance

- [ ] SMS opt-in language present on all forms
- [ ] Privacy policy linked from every form
- [ ] DNC tag respected by all outbound workflows (test by tagging a test contact)

## 8. Build Order (apply in this sequence in GHL)

1. Custom field groups + fields (Section 3) — must exist before pipelines/forms reference them
2. Tags (Section 2) — pre-create as needed; many auto-create on first use
3. Contact layouts (Section 4) — assign default, attach funnel-specific via workflow
4. Pipelines + stages (Section 1) — create all 3
5. Forms — build/connect intake forms, map fields to custom fields
6. Workflows (Section 6) — universal intake first, then stage automations
7. Smart lists (Section 5) — last, since they depend on tags/stages existing
8. QA pass (Section 7) — run full checklist before DNS

## 9. Hand-off to Vercel (what becomes available after this build)

Once Sections 1–6 are applied in GHL, these are the values you'll be able to hand to Vercel:

- Form embed IDs / URLs per funnel (3)
- Calendar booking link slugs per funnel (or shared)
- Quiz URL (if hosted in GHL)
- Webhook endpoints for any custom posts
- Confirmation page redirect URLs

I'll generate the Vercel hand-off doc as the next step once you've applied this and confirmed the IDs.

## 10. Open items for your input

1. Stages — review and edit Section 1 freely. The flows above are best-practice defaults for distressed-seller / lifestyle-seller real estate. Reduce or rename anything.
2. Lead source channels — confirm the source list in Section 2.2 is complete for your actual paid + organic mix.
3. Calendar strategy — single shared M2M calendar, or one per funnel? (Affects booking link count.)
4. Owner / assignment — is it just you for now, or should I bake in round-robin for a future ISA seat?

5. **Notification channel** — Slack DM, SMS, email, or all three on new lead?

Send edits and I'll regenerate. Otherwise this is ready to apply.
